Non-Binding Notice

- This document publishes certification pricing and related commercial terms.
- It does not create, amend, supersede, or reinterpret standards, certification requirements, scoring thresholds, enforcement authority, or regulatory alignment obligations.
- Payment of any fee does not guarantee certification approval. Certification is granted only through evidence-based evaluation under the Rulebook.
- Certification may be denied, suspended, or revoked regardless of payment.

Overview

- Certification pricing applies per AI model or materially distinct workflow.
- Membership is required but billed separately.
